RICHARD J. METZGER
VICE PRESIDENT &
GENERAL COUNSEL

January 22, 1998

Ms. Magalie Roman Salas
Secretary
Federal Communications Commission
1919 M St., N.W.
Washington, D.C. 20054

RECEIVED

JAN 22 1998

FEDERAL COMMUNICATIONS COMMISSION
OFFICE OF THE SECRETARY

- Re: (1) Application of Ameritech Michigan Pursuant to Section 271 of the Communications Act of 1934, as amended, To Provide In-Region, InterLATA Services in Michigan, CC Docket No. 97-137;
- (2) Application by SBC Communications Inc., Pursuant to Section 271 of the Communications Act of 1934, as amended, To Provide In-Region, InterLATA Services In Oklahoma, CC Docket No. 97-121;
- (3) Application by BellSouth Corporation, BellSouth Telecommunications, Inc., and BellSouth Long Distance, Inc., for Provision of In-Region, InterLATA Services in South Carolina, CC Docket No. 97-208;
- (4) Application of BellSouth Corporation, BellSouth Telecommunications, Inc., and BellSouth Long Distance, Inc., for Provision of In-Region, InterLATA Services in Louisiana, CC Docket No. 97-231;
- (5) Request for Expedited Letter Clarification--Inclusion of Local Calls to ISPs Within Reciprocal Compensation Agreements, CC No. 96-98;
- (6) Petition for Expedited Rulemaking - Implementation of the Local Competition Provisions in the Telecommunications Act of 1996; CC Docket No. 96-98, RM-9101;
- (7) In the Matter of Expanded Interconnection with Local Telephone Company Facilities; CC Docket No. 91-141

Dear Ms. Salas:

On Wednesday afternoon and Thursday morning, members of ALTS met with Commission staff to discuss various matters involving checklist compliance by BellSouth (see the attached attendance lists, and the attached items distributed at these meetings).

Ms. Magalie Roman Salas
January 22, 1997
Page 2

Discussion on Wednesday afternoon included:

- Dan Gonzalez discussed NEXTLINK's experience with BellSouth's process for ordering poles.
- Nanette Edwards described DeltaCom's difficulties with BellSouth's unannounced changes to its E911 update system, and its refusal to provide E911 information as required in its interconnection agreement.
- Jim Falvey addressed ACSI's efforts to obtain number portability from BellSouth.
- Dan Gonzalez recounted NEXTLINK's service problems in its interconnection facilities with BellSouth.
- Dave Porter of WorldCom and Jim Falvey discussed the unusually high NRCs charged by BellSouth for all types of loops, the unduly high level of recurring costs for loops, and the absence of loop unbundling.
- Julia Strow and myself addressed BellSouth's failure to pay reciprocal compensation on local calls to ISPs exchanged with CLECs even though it does pay for such calls under reciprocal compensation arrangements with adjacent LECs, and treats these calls as local in its ARMIS reports, separations reports, and state rate cases.
- Dan Gonzalez raised problems encountered by NEXTLINK with its white pages listings.
- Nanette Edwards discussed dialing parity issues that had been created by BellSouth.

Topics addressed today included:

- A demonstration by Julia Strow that the vast majority of EDI orders sampled by ICI have missed the 48 hour FOC standard, followed by a discussion of LCUG performance standards by Rich Fruchterman, and ALTS performance standards by myself.
- A discussion of OSS was conducted by Nanette Edwards, Sandra Stisher and

Ms. Magalie Roman Salas

Page 3

Mike Thomas of DeltaCom, and Julia Strow and Cheryl Wilcoxon of ICI. The current Harbinger EDI interface required by BellSouth was criticized, and participants pointed out that implementation of an EDI interface had failed to generate service improvements, leading to the strong inference that BellSouth continues to rely on manual intervention behind its EDI interface, even for simple resale orders.

- Collocation issues were addressed by Janine Kemp Moses of DeltaCom and myself. Ms. Moses explained that collocation was extremely expensive with BellSouth, in excess of \$300 per square foot, and that BellSouth has resisted implementation of physical collocation. Furthermore, implementation was extremely time-consuming, given the inflexible process demanded by BellSouth. I pointed out that the business schedules of most CLECs forced them to accept onerous collocation provisions rather than resort to arbitration, state decisions, and court appeals. Although the Commission originally declined to apply its various rulings concerning tariffed collocation to negotiated arrangements, it retains full authority to end these practices by promptly prescribing just and reasonable rates, terms and conditions for both physical and virtual collocation.
- Julia Strow and Rich Fruchterman gave a short account of our concern that BellSouth was utilizing the October 14th order of the Eighth Circuit to hamper the implementation of simple orders, such as extended loops, by contending such orders are "recombinations." We expressed our belief that the Commission has full power under Section 271 to prevent such gaming.
- Nanette Edwards and Dan Gonzalez concluded the meeting by providing information on E911 and trunk blocking that had been requested yesterday.

Sincerely yours,

Richard J. Metzger
